

21-24 April, 2016  
Hotel Crowne Plaza  
Belgrade, Serbia

# 65<sup>th</sup> ESCVS

International Congress of the European Society  
for CardioVascular and Endovascular Surgery

## Joint event

ACST 2 collaborators meeting

## Joint sessions

Working group for Pacemaker of the Serbian Society for Cardiology  
Heart Failure Society of Serbia

[office@escvs2016.org](mailto:office@escvs2016.org), [escvs2016@gmail.com](mailto:escvs2016@gmail.com), [www.escvs2016.org](http://www.escvs2016.org)

## Abstract submission deadline: 01.12.2015. - SUBMIT YOUR ABSTRACT

The founding idea of the European Society for Cardiovascular and Endovascular Surgery, as one of the world's oldest association, is to promote research and study of cardiovascular disease, as well as to coordinate the transfer of scientific knowledge. Concept of the meeting and program of the Society support organizing additional educational events during the meeting. Every spring annual meeting, the main event of the Society, is organized in different part of Europe. One of the most important roles of the ESCVS has always been to enable the exchange of ideas in the field of heart and blood vessels diseases, through scientific meetings and through personal contacts between cardio and vascular specialists. During the pregress day, within the meeting of the associates of large multicentered randomized ACST2 study, will be organized a symposium dedicated to the treatment of carotid disease, in collaboration with the University of Oxford, with an additional one hundred participants from elite european centers that are dealing with the treatment of this disease. Organizing committee of the annual congress of the ESCVS is led by prof dr Lazar Davidovic, member of the EC and President elect of this Society, and we are looking forward for new initiatives that will enrich our scientific program and promote new therapies, educating physicians and medical technicians in the same time.

## Joint sessions 23<sup>th</sup> April 2016

### 07.45 - 11.00 Seminar in Thrombosis and Antithrombotic Therapy M. Matsagkas (Greece)

Course director: M. Matsagkas (Greece)

Moderators: M. Matsagkas (Greece), I. Banzic (Serbia)

#### Part A Arterial disease

08.00 - 08.15 Antithrombotic treatment in peripheral arterial interventions  
G. Kouvelos (Greece)

08.16 - 08.30 Antithrombotic treatment in carotid interventions  
I. Banzic (Serbia)

08.31 - 08.45 Optimal antithrombotic treatment during cardiac surgery  
S. Putnik (Serbia)

08.46 - 09.00 Antithrombotic treatment during combined cardiac surgery  
and carotid intervention  
M. Matsagkas (Greece)

09.01 - 09.10 Discussion

#### Part B Venous Thromboembolism

09.11 - 09.30 The recently published ESC guidelines for pulmonary  
embolism - New treatment strategies  
Vassil Chervenkov (Bulgaria)

09.31 - 09.50 NOACs in the treatment of VTE. Clinical implications  
M. Matsagkas (Greece)

09.51 - 10.00 Discussion

#### Part C Peri-operative antithrombotic management

10.10 - 10.50 Managing patients under anti-thrombotic therapy to  
undergo non-cardiac surgery  
E. Arnaoutoglou (Greece)

10.51 - 11.00 10.45 Discussion

### 11.00 - 13.00: JOINT SESSION WITH SERBIAN WORKING GROUP FOR PACEMAKERS: Modern interaction between vascular

surgeon and pacemaker expert

Moderators: G. Milasinovic (Serbia), S. Pavlovic (Serbia), I. Koncar (Serbia)

1. Vascular complication during pacemaker/ ICD implantation and follow up

S. Raspopovic (Serbia) 15 min

2. Pacemaker and ICD lead extraction - cardiovascular surgery always stand by!

G. Milasinovic (Serbia) 15 min

3. Cervical vagal pacemaker stimulation in patient with heart failure: pacemaker  
expert and vascular surgeon as a team I. Koncar (Serbia) 15 min

#### 13.00 - 14.00 Lunch symposium

### 14.00 - 16.00: JOINT SESSION WITH SERBIAN SOCIETY FOR HEART FAILURE: Diabetes and heartfailure: pathophysiology,

clinical presentation and treatment

Moderators: S. Dimkovic (Serbia), S. Pavlovic (Serbia)

1. Diabetes, heart failure and advanced glycation end products:

Clinically relevant hidden links? - Mamas Mamas, (UK)

2. Dysglycaemia and heart failure phenotypes: clinical presentation and  
therapeutic implications - P. Seferovic (Serbia)

3. Acute coronary syndrome in type 2 diabetes: Optimal clinical and treatment  
strategies - A. Oto (Turkey)

4. Acute heart failure and diabetes: prognostic and therapeutic aspects

A. Ristic (Serbia)

5. Antiglycemic drugs in heart failure: friends or foe?

Michael Theodorakic, (UK)

## Registration fee

	Early until 01.12.2015.	Late	Onsite
Cardiologist	€ 150	€ 200	€ 200

The European Board of cardiovascular perfusion meeting  
Cardiovascular nurses and technicians - abstract presentations and workshop
